## Front-End Web Developer

Highly skilled and motivated Front-End Web Developer with almost 3 years of experience in delivering cutting-edge digital solutions. Proficient in HTML, CSS, and JavaScript, with a strong focus on React.js, Next.js, and Typescript for building performant and scalable websites. Adept at integrating back-end services or REST/GraphQL APIs to ensure seamless functionality. Committed to adhering to the best software development practices and delivering high-quality solutions.

## SKILLS

---

Agile / Scrum, Cross-Browser Compatibility, CSS3, Firebase, Git/GitHub, HTML5, JAMstack, JavaScript, Jest, JSON, Next.js, react-redux, React.js, REST/GraphQL API integration, scss, Tailwind CSS, TypeScript

## WORK EXPERIENCE

---

**Blending101** • Florida, US • Full-time • 09/2021 – Present

### Mid Front-end Web Developer (Remote)

- Develop and maintain websites with responsive design, cross-browser compatibility, and user-friendly interfaces, enhancing user experience and engagement.
- Implement Next.js framework to create fast and SEO-friendly websites, optimizing Core Web Vitals for improved performance.
- Integrate data from back-end services and GraphQL APIs to enable dynamic content and enhanced user interactions.
- Collaborate with design and backend teams to translate wireframes and mockups into pixel-perfect, high-quality code.
- Utilize HTML/CSS best practices and front-end technologies like React and SCSS to create visually appealing and intuitive website layouts.
- Maintain coding standards, resolve conflicts, and identify the most suitable tools for upcoming challenges.
- Conduct thorough troubleshooting and bug fixing to ensure smooth functionality across different browsers and devices.
- Prioritize website performance by optimizing, caching, and refactoring the existing codebase.
- Proactively stay abreast of the latest software development trends, and techniques, leveraging them for continuous improvement.

**MzTech Corp** • New York, US • Full-time • 02/2020 – 08/2020

### React Developer (Remote)

- Assisted in developing website features and functionalities, gaining hands-on experience in web development techniques and best practices.
- Implemented Firebase as a back-end service, enabling social login functionality and serving as the database.
- Integrated REST APIs for e-commerce projects, enhancing website functionality and user engagement.

- Cooperated with developers to troubleshoot and debug issues, enhancing problem-solving skills and learning new coding techniques.
- Converted designs and wireframes into reusable React components.
- Worked under the Agile methodology and consistently delivered tasks within specified time frames

## EDUCATION

---

### **Full Stack Open (online) in Web development**

University of Helsinki • Finland • GPA: 2 • 03/2023 – Present
